India through the Artist's Eyes

Artist's Biography

I was born in the UK. My family are from the island of Jersey. In 1967, I came to Saskatchewan as a teacher and have since pursued opportunities in the field of education and the arts. I initially studied in London UK, and later acquired a fine arts degree from the University of Regina, a masters degree in education and studies in art history, Renaissance and Baroque painting from Italy and Greece.

I have practised as a professional artist since 1986 exhibiting in public and commercial galleries. My work is included in public and private collections in Canada and Britain.

Presently, I am a full time artist, although I have been involved in a wide variety of arts activities in the province of Saskatchewan, teaching at school and university levels, artist in school programs, adjudication, mentorship and as a learning activities developer for the award winning ArtSask website, dedicated to the presentation and interpretation of artworks from Saskatchewan's major art museums. I enjoy being involved with the local art scene, and interacting with other artists and art lovers in my community

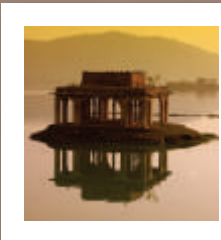

My work presently includes painting, drawing, and mixed media. Narrative is a thread that runs through much of my work from autobiographical experiences, memory and family history, to working on figurative and still life compositions. My love of travel has been an important part of my artmaking experience. It doesn't matter where I go, I find something exciting to energize and inspire me.
